Education

BE Computer Science Engineering – Dr. Mahalingam College of Engineering and Technology

Current **CGPA: 7.4**

12th - P.K.D Matric Higher Secondary School

Percentage: 78%

10th - A.M.S Matric Higher Secondary School

Percentage: 66%

Technical Skills

Programming Language:	**Front End Development:**
Java, C	HTML, CSS, JavaScript
Database Management:	**Developer Tools:**
MySQL	GitHub

Professional Experience

Wadhwani Foundation

Skill Development Program:

Gained Problem-solving, Communication skills and Innovation ideas to improve projects, demonstrating creativity and initiative.

Projects

- **IoT based Web application for Forest fire Detection System**
NodeMCU Microcontroller, Sensors, Thingspeak cloud, HTML, CSS, JavaScript.
Developed a forest fire detection system using NodeMCU, Flame, Temperature, and Humidity sensors integrating with Thingspeak cloud for real monitoring, featuring a secure login for data access.
- **Online Clothing System Using PHP and jQuery**
Developed a clothing system for managing and streamlining clothing purchases. The system allowed users to browse, select, and purchase clothing items.

Certificates

- Introduction to Front End Development
- Java Essentials
- Database and SQL
- UI and UX (Beginners)
- AWS Academy Cloud Foundations

Co-curricular activities

- Paper Presentations – 2023 conducted by Sri Ramakrishna Institute of Technology, Coimbatore
- Paper Presentations - 2024 conducted by Bannari Amman Institute of Technology, Coimbatore
- Devops Workshop – 2024 conducted by Dr. Mahalingam College of Engineering and Technology, Coimbatore
